Portfolio: <https://abilash-1521.github.io/portfolio/>

PROFESSIONAL SUMMARY

Salesforce Developer with 2.5+ years of experience building scalable, bulk-safe solutions using Apex, Triggers, Flows, and LWC. Experienced in nCino implementations, asynchronous processing, and Agile environments. Currently enhancing expertise through real-time use cases and interview-focused problem solving

TECHNICAL SKILLS

Salesforce: Apex, SOQL, Triggers, Flows, LWC
Async & Data: Batch Apex, Queueable, Scheduled Apex, HTTP Callouts
Concepts: Bulkification, Governor Limits, Security (CRUD, FLS)
Tools: Git, VS Code, SFDX, JIRA
Domain: Sales Cloud, nCino

PROFESSIONAL EXPERIENCE

DELOITTE CONSULTING USI | ASSOCIATE ANALYST August 2022 – January 2025 | Chennai

- Built dynamic checklist & task automation using Apex and Flows, reducing manual effort by ~40%
- Developed scalable, bulk-safe trigger frameworks with handler classes and optimized logic
- Implemented async processing (Batch & Queueable) to handle large datasets efficiently
- Designed Opportunity-to-Treasury service logic improving backend processing efficiency
- Created scheduled Batch jobs for automated data cleanup, improving system performance
- Wrote optimized test classes ensuring deployment readiness across environments
- Collaborated with stakeholders and participated in Agile sprint delivery cycles
- Independently handled requirement understanding and contributed to solution design discussions
- Led a team of 5–6 members and conducted KT sessions

PROFESSIONAL DEVELOPMENT

January 2025 – Present

- Practicing Apex, Flows, and async processing through real-time scenarios
- Revising governor limits, security model, and best practices
- Preparing for Salesforce interviews with scenario-based problem solving

KEY IMPLEMENTATIONS

- **Dynamic Checklist & Task Automation System** – Apex Triggers, Record-Triggered Flows
- **Opportunity-to-Treasury Service Automation** – Apex, Flows
- **Asynchronous Data Processing & Cleanup** – Batch Apex, Queueable Apex, Scheduled Apex

EDUCATION

BACHELOR’S DEGREE | B. Sc Computer Science with Cognitive Systems |
Sri Krishna Arts and Science College 2019 – 2022

CERTIFICATION

- Basics of nCino 101
- Python for Data Science (IIT Madras)
- Generative AI & NLP
- Google Cloud (Foundational)
